Apartheid Museum and Gold Reef City

(Full day tour; lunch included)

This tour gives a view of South Africa's stormy political past as well as South Africa's established gold-mining industry.

At the Apartheid Museum, you can gain knowledge of how a concept of race segregation (apartheid) once tore a country and its people apart. It resulted in the struggle towards freedom and the dawning of a new dispensation of hope; the birth of a new democracy.

Built in the proximity of shaft number 14 of the old Crown Mine is the historic and much visited Gold Reef City. This huge and very popular entertainment and theme park with casino provides historical facts, fantasy and lots

of fun; even an underground mine tour and gold pouring demonstration!

Gautrain, a state-of-the-art rapid rail network, provides fast, safe and reliable transport between various stations, such as OR Tambo International Airport and the Sandton CBD. At the latter, spend time walking, shopping, laughing, eating, drinking and unwinding; enough to keep you busy the whole morning.

After lunch, we can fill your program with a visit to Soweto (see below).

Soweto *(Half day tour)*

You have to do this one ... with a local tour guide!

The discovery of gold and the influx of people in the area circa 1900 led to the establishment of Soweto, originally Klipspruit, near Johannesburg.

Today, Soweto is the biggest and most metropolitan township in the country, radiating a unique vibrancy in which recent trends in all fields of life are reflected. Tourists, locally and abroad, frequent this hotspot of people from the humblest occupants in informal settlements to world-renowned figures, such as Nobel peace prize winners.

Visit local residents in their homes and feel the vibe at the Kliptown market, travel past Madiba's house on your way to the Hector Peterson Memorial and shop at the local markets. Buy a special South African gift, a reminder of a wealth of knowledge and memories of warm hearted people.
